

Information System Implementation and Evaluation					
Course Code	Student Workload	Credits (according to ECTS)	Semester	Frequency	Duration
CIS61023	90 hours	4.5	Sem. 5	each odd-semester	16 meetings
1	Types of courses <i>Compulsory (study programme level)</i>	contact hours 63 hours	independent study 27 hours	class size 40 students	
2	Prerequisites for participation Have completed Information Systems Analysis and Design course				
3	Learning outcomes IS-ILO-2 Graduates are expected to be able to understand and apply the concepts of governance and management of information systems to achieve organizational goals.				
4	Subject aims <ul style="list-style-type: none"> • Students are able to understand the process of implementing the results of the information system design • Students are able to implement information system design into a programming language • Students are able to understand the concept of information system testing • Students are able to apply information system testing techniques 				
5	Teaching methods Lectures, case study, class discussion, presentation				
6	Assessment methods Assignment, mid-term examination, end-term examination, project evaluation, practical-skill assessment				
7	This module is used in the following degree programs as well				
8	Responsibility for module				
9	Other information S.H. Kan. Metrics and Models in Software Quality. Dorothy Graham. ISTQB Foundations of software testing
